

## Explanation and Election Form

# THE **myKlovr** EDUCATIONAL PLANNING BENEFIT

### What is the **myKlovr** Educational Planning Benefit?

- It's the first ever employee educational planning benefit of its kind for employees and their families
- It's inexpensive and assists you from the college admissions process to professional development – you are provided with an educational resource to maximize the college admission process for you or your children in an efficient and cost-effective manner
- It's a personalized, algorithm-driven, 24/7 college counseling benefit at a fraction of commercial or professional college counseling cost

### Why is the **myKlovr** Educational Planning Benefit important?

- A college education is a prerequisite for a rewarding career that has the potential for advancement in today's sophisticated marketplace – yet most people find it difficult to navigate a very complex college application process, many people don't know how to distinguish between application materials and admission criteria, and most people spend too much time on the process and pay too much in application fees
- High school counselors don't have the necessary resources or the depth of **myKlovr's** analysis, and college counseling is far too expensive for the average American family and still doesn't have the impact of **myKlovr**

A public high school student receives approx.  
38 min of college advising per year  
(National Association for College Admission  
Counseling, 2005)

## What does the **myKlovr** Educational Planning Benefit actually provide?

- It's designed by data scientists for college-bound students (useful as early as the 9th grade) and maximizes the likelihood of a student being admitted to the colleges and universities of their choosing
- It identifies personal and academic deficiencies at an early stage (via proprietary assessment testing) and recommends specific and actionable intelligence steps to address them
- It connects your student with specific resources and educational professionals for areas requiring improvement and provides the student and parents with a personalized blueprint to achieve goals and tracks their progress
- It adjusts the student's personalized blueprint and recommendations based on actual data results, it provides a unique platform for assembling a student's college application portfolio, and assists students and their parents in evaluating and selecting desired colleges and universities
- It connects students with suitable options for financing vehicles, scholarships, and internships

## How do I sign up for the **myKlovr** Educational Planning Benefit?

- You simply fill out the attached election form for payroll withholding to pay for the benefit by having it withdrawn, on an after-tax basis, from you paychecks
- Each paycheck, \$\_\_\_\_\_ will be withheld to pay for the benefit
- After you are registered for the **myKlovr** Educational Planning Benefit, you simply have the student-user begin the online process by completing the academic, personal, and professional assessments
- The student-user then continues to work through the online modules for information, results, feedback, assessments, options, and the remaining educational planning benefits
